

Invitation

Environment & Energy New Trends and Business Cooperation Opportunities in the Indian Market

DATE: Wednesday, 08 July 2015	VENUE: EUROCHAMBRES – Avenue des Arts 19 A/D Brussels, Belgium
--------------------------------------	---

This workshop will explore EU-India relations within the Energy & Environment spheres, spinning off from the recent needs assessment conducted by the Indo-Italian Chamber of Commerce and CEIPIEMONTE. The study has been carried out within the scope of the European Business & Technology Centre (EBTC).

On one hand, the survey identifies the trends and needs of Indian companies in the fields of: technology, services, products, and know-how. On the other, its outcomes offer an insight to business cooperation opportunities between the two blocs.

The results will be presented among the audience, and will serve as the basis for interactive sessions throughout. Best practices, research methods and key developments will be shared with participants in order to stimulate discussion. The event will include Q&A sessions supported by experts and speakers alike, as well as networking sessions for participants to engage in bilateral meetings.

Who should attend?

Entrepreneurs and/or **organizations** active in **environment & energy** sectors: water and waste management, air pollution, renewable and efficiency energy

Participation to both events is **free**.

Registration Interested delegates are requested to forward the attached Registration form to ebtc@centroestero.org within Friday, **3 July 2015**.
